

# Workday Landing page

On this Job aid:

- Components of the landing page
- Core Navigation
- Global Navigation Menu
  - Edit order of your Top Apps
- My Shortcuts
- Enhanced Search

**i** Workday has added machine-learning algorithms to recognize common tasks and applications by user and displays those on employee's landing page (Quick Tasks).

It will take several weeks of use for changes to take effect on your personalized page.

## Components of the landing page

**Global Navigation**  
Access and organize your applications

**Awaiting Your Action**  
Access your inbox items and Journeys

**Your Team**  
**For People Managers Only:** Access your reminders and action items

**Timely Suggestions**  
Access your reminders and suggestions

**Recommended for You**  
Access information to help you learn about specific features in Workday

**Quick Tasks**  
Access suggested tasks

**Your Top Apps**  
Access your 4 top applications

**View All Apps**  
Access all your applications

**Announcements**  
Access your announcements

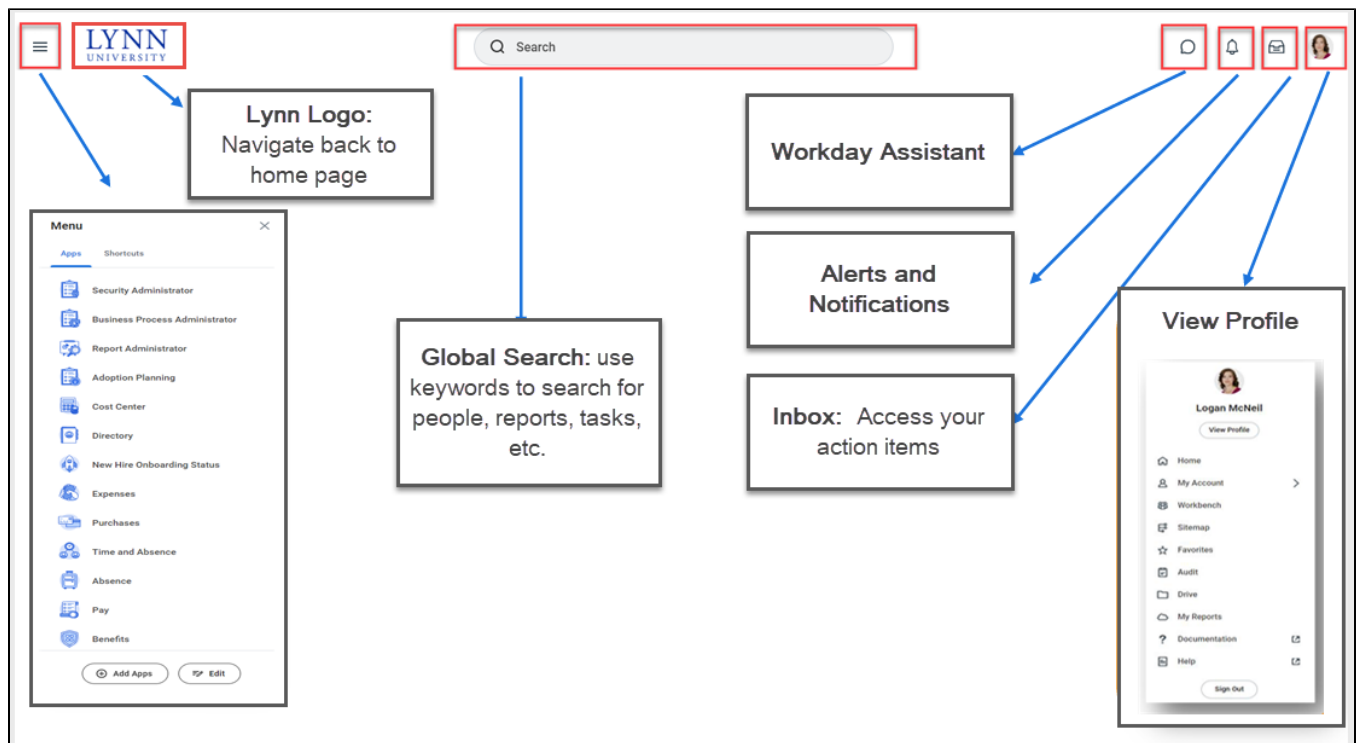

**Workday Assistant**  
Need Help? Ask Workday Assistant

When you log into Workday, you will notice a new home page layout experience.

Workday presents information in several cards on the landing page:

- **Global Navigation:** Organize and access your applications.
- **Awaiting your action:** It displays the top three items on your inbox. To access your inbox, you can click on the link "Go to all Inbox Items" beneath the list or the inbox icon on the top right of your screen.
- **Your Team (Managers Only):** It displays reminders and action items for managers.
- **Timely suggestions:** employee-specific reminders and action items.
- **Quick tasks:** provides links to the three tasks a user accesses regularly. Workday optimizes this area using AI.
- **Your Top Apps:** Configurable top 4 apps to display on your home page. Perhaps the most significant change is that only four Apps are shown instead of twenty. Click on the "View all apps" option beneath the three opens to the entire list of apps. See also [global navigation menu](#).
- **Announcements:** The Lynn announcements moves lower on the page.
- **Workday Assistant:** Workday's purpose-built chatbot that can help you complete common tasks, answer questions, and navigate around Workday. [Click here for more info.](#)

## Core Navigation

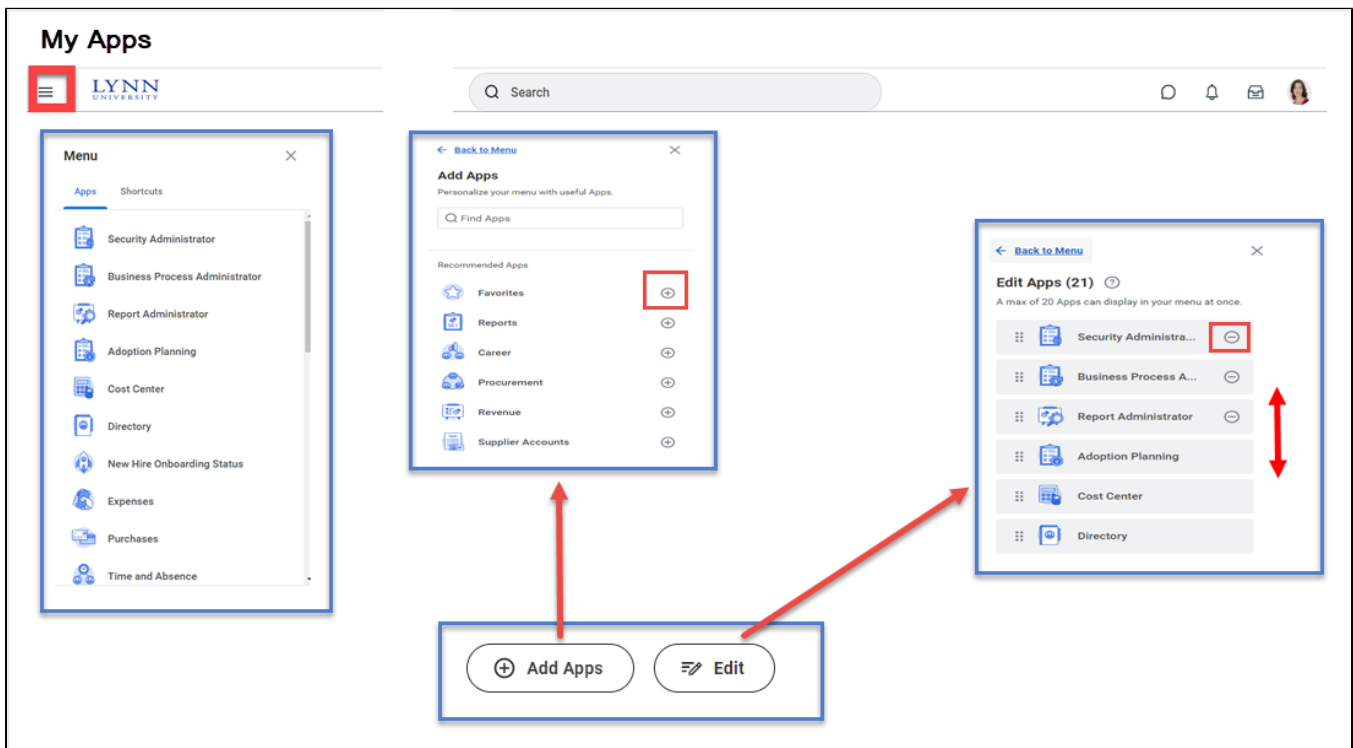

## Global Navigation Menu

Access the new global navigation panel by selecting the 3 lines to the left of the Lynn logo. The panel will list all Workday's applications and shortcuts formerly displayed as icons on the landing page. The global navigation panel is on every Workday page, not just the landing page. Employees who use Workday's shortcuts option (the foursquare icon) or configure applications option (cog icon) will find those options in the global navigation panel. Shortcuts set previously in Workday will show up in this panel after Sep. 11.

## Edit order of your Top Apps

Select **Add Apps**, Search apps or click + sign next to apps to add.

Click Edit, Click - to delete apps or **Click and drag apps** to rearranged them.

## My Shortcuts

The Configure Shortcuts task is no longer available in the top menu

You will find the shortcuts on the top of the Global Navigation Menu, tab next to Apps.

Click Add Shortcuts, search for the task or report, click + sign to add

To reorder or delete shortcuts, Click Edit. Select - sign to delete shortcuts or drag and drop to reorder.

## Enhanced Search

Workday enhanced the search experience to make it easier to find what you're looking for. The search results will be organized on categories such as organizations, people, and task and reports.

The Search Bar will now, by default, only yield results related to People, Tasks and Reports.

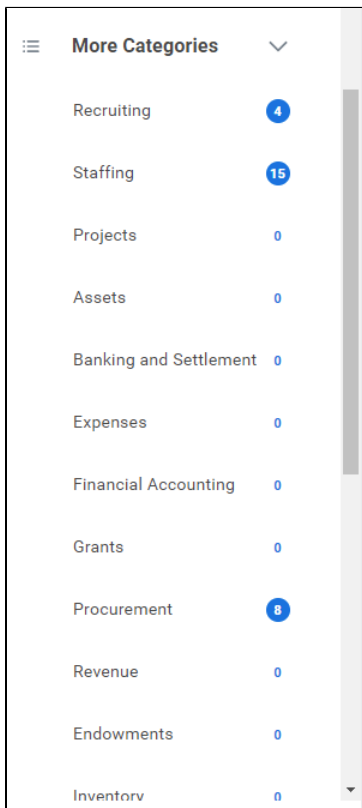

Users will be able to select other search categories (such as Expenses and Recruiting) shown under **More Categories** to yield those related results.

*Not finding what you are looking for?* The More Categories section on the left, will let you select search results from other categories based on your search. You will see this test example search revealed 15 results in Staffing that users can view by selecting them.

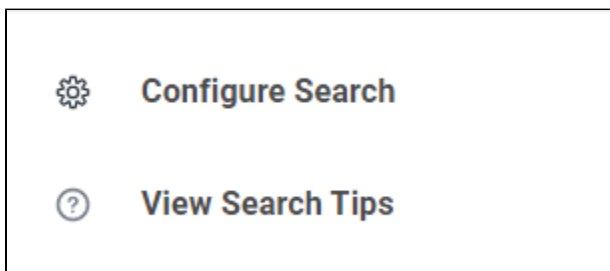

Click on "More Categories" > to expand your search

You can customize your search categories to better fit your needs by clicking the "Configure Search" gear icon .

If you are in a role that has you searching for things outside the defaulted search categories (like Position Titles, Expense Reports, Students, etc) you may want to **configure your search** results to automatically search for those items.

To configure your search results, select the **Configure Search** button at the bottom left of the Search Results page.

Click and drag the category you wish to add from "More Categories" to "Saved Categories."

×

### Configure Your Search

Drag and drop to reorder both lists.
