

PasswordState - How to Login

1. Go to <https://lupass.lynn.edu/> in an internet browser which should look like below.
 - a. *****You can only access the site if you are on campus or if you are an approved VPN user.

The screenshot shows the Passwordstate login interface. At the top, there is a blue header with the text "Passwordstate". Below this, the "Passwordstate" logo is displayed, followed by "Active Directory Authentication". The main section is titled "Login" and contains the instruction "Please enter your user name and Password to authenticate." There are two input fields: "Username" and "Password". The "Username" field has a dropdown menu showing "knights\" and a text input field containing "firstinitiallastname@lynn.edu". The "Password" field is a standard text input with masked characters (dots). To the right of the password field is a "Logon" button. At the bottom of the form, the status "Status: Awaiting Login" is displayed.

- b.
2. At the screen above enter your username and your password and click the Logon Button.
3. At the screen below, click the Send Push Button to send a push to your registered device in Azure MFA
 - a. Open your Google or Azure Authenticator app and select Scan QR Code. Then scan the QR Code below.
