

How To: Using Software Center to Install Applications on Windows Computer

This instruction provides information on how to use Software Center to install authorized Lynn University Windows 10 compatible applications.

Step-by-step guide

1. Once logged into Windows 10 Desktop
2. Click on the Windows Logo in the bottom left-hand corner of your screen
3. Once you click on the Windows logo, begin typing **Software Center**.
4. Click on the **Software Center Desktop App** button that appears

5. The **Lynn University Application Catalog** will open
6. Under the **Applications Tab**, choose the application you wish to install (if there are 2, choose the one with the **NEW** banner)
7. Click the **Install**
 - a. Your application will begin to install
 - b. When complete, the **Install** button will change to an **Uninstall** button
8. You have successfully installed your application
